Meet Up Point

During an emergency, your tenants must evacuate as quickly as possible. However, you need a way to account for everyone after they have left the premises. The best way to do this is to designate an area for tenants to report to during the emergency. Once at the meetup point, evacuees should check-in with the warden or other individuals responsible for their safety.

Tenants will need to know where the designated meet up area is. You can hold fire drills and practice for an event, but that may not do much good during an emergency. In an emergency situations, people tend to panic and may require extra guidance and reminders.

That is why your building needs *emergency contact cards*. These cards should be distributed to all of your tenants for their reference.

Key Features

■ **Wallet Sized**

Cards are 3.5" x 2" and can easily fit into a wallet or business card holder.

■ **Custom Made**

All TFP Emergency Contact Cards are custom made and are tailored to suit your building's needs and provide details of your emergency evacuation plan

■ **Visual Reference**

Cards will have a detailed map, showing the vicinity of your building and both the primary and secondary assembly points. Cards will also have a small compass showing North, South, East and West

■ **Other Numbers**

Cards can include key contact numbers that tenants can call during a life threatening or non-life threatening emergency
